

# AB Agri acquires Kite Consulting and Advance Sourcing

We are excited to announce that today Kite Consulting and Advance Sourcing have been acquired by AB Agri. We are delighted to become part of the AB Agri network, which will enable us to continue to grow and develop the business, creating additional value for our clients.

AB Agri, the Agriculture division of Associated British Foods, has an expert understanding of agriculture and animal nutrition. The business works across the agricultural supply chain and its products, data insight and technological innovations enable customers to produce high quality, safe and nutritious food in a sustainable way, safeguarding natural resources and creating less waste and lower emissions.

Kite Consulting and Advance Sourcing will complement AB Agri's existing dairy business. There will be no change to the management of Kite Consulting and Advance Sourcing and the businesses will continue to operate on a standalone basis offering independent advice and independent product sourcing.

Importantly, this development will not affect the way we work with clients – it is very much business as usual – and we are confident that this will be a catalyst for Kite and Advance to embark on a new chapter, resulting in even stronger support for the dairy industry moving forward.

Should you have any questions then please do not hesitate to speak to your usual Kite contact.
