

# Why are we still talking about Johne's Disease?

Getting the best value out of existing data and how to 'take control of the controllable'.

Please join us for one of our two Webinars  
on Wednesday 1 May - 13.00 - 14.30pm or 19.00 - 20.30pm

Johne's disease has not gone away; controlling the disease requires a long-term focussed approach. Learn how Johne's is affecting carbon footprint as well as profits and what you can do to control the impact.

- **Dr Karen Bond** - Veterinary Adviser, NMR - Overview of the national position and progress.
- **Rose Jackson** - Head of Genetics, Kite - What does Kite data look like?
- **Ben Watts** - Head of Technical & Innovation, Kite - Case Study
